#### **EDUCATION**

#### **MCA**

LJ University, Ahmedabad Sep 2023-Present

#### **BCA**

**Gujarat University** June 2020-May 2023

#### **TECHNICAL SKILLS**

#### **Programming Languages**

Python,
Java,
JavaScript,
C, C++,
SQL

#### Web Technologies

Django, REST Framework, Nextjs, Reactjs, Nodejs, Expressjs, tailwindcss, Bootstrap, JQuery, Numpy, Pandas, Matplotlib

#### **Tools and Technologies**

Git, Github, Linux

#### **WORK EXPERIENCE**

Fresher

#### **PROJECTS**

### Rental Vehicle Application (Python, Django, JavaScript)

https://starlettex.pythonanywhere.com

Developed a web platform with separate portals for users, vendors, and admins:

- **User Portal:** Browse available vehicles, book rentals, and manage personal bookings (e.g., view, cancel, or extend rentals).
- Vendor Portal: Register, list vehicles, and manage bookings.
- Admin Portal: Manage users, vendors, vehicles, and monitor bookings

#### **Responsibilities:**

- Designed and implemented a secure database schema using PostgreSQL.
- Implemented custom authentication and session management.
- Built an admin dashboard and automated PDF receipt generation.

## E-comm Frontend Application (Nextjs, Reactjs, Tailwindcss)

https://ecomm-app-nextjs.vercel.app

Developed the responsive frontend of an e-commerce platform, focusing on user experience and performance:

- Built reusable and responsive components using React.js and Tailwind CSS.
- Optimized performance and routing with Next.js for seamless navigation.

### E-commerce Application (PHP, HTML, CSS, JavaScript, MySQL)

http://furniture-shop-php.42web.io

Developed an e-commerce platform with two main portals:

- User Portal: Browse products, make purchases, and manage orders.
- Admin Portal: Manage products, users, and orders.

#### **Responsibilities:**

- Developed user and admin portals using PHP and MySQL.
- Designed product browsing, cart, and checkout features.
- Created an admin dashboard for product and order management.
